National Tree Planting Day 5th December 2009

On Saturday 5th December 2009 more than 20 volunteers turned up to take part in the **National Tree Planting Day.** This was a national event to beat the existing record (in the **Guinness Book of Records**) for the greatest number of trees planted in the UK in one hour. The challenge was to plant an agreed number of trees in our woodland area within one hour.

The weather was abysmal - very heavy rain throughout the day. The Westmuir Volunteers were required to plant **200 trees** during the hour - and succeeded in planting 210 trees.   Amazing too that everyone stayed so focused on the task and so cheerful!
